About the Clinic

In May 2004, Community Ministries of Rockville (now Community Reach of Montgomery County) founded the Mansfield Kaseman Health Program (MKHP) in response to the need for increasing access to primary healthcare services for uninsured and underinsured adults in Greater Rockville. Initially, MKHP offered four hours of clinical service at one location in the community through services provided by Mobile Medical Car, Inc. and additional “wrap-around” services of counseling, training, education, and patient services provided by our own staff.

Over the next four years, we expanded clinic service hours, offering 12 hours of service per week at two Rockville locations: Crusader Lutheran Church and Lincoln Community Center. These two centers had a patient roll of approximately 500 and provided 1,300 patient visits per year. Almost thirty percent of the patients lived within the boundaries of the City of Rockville.

After conducting a feasibility study in 2007 that validated the need, we began the process of developing a permanent clinic for the uninsured. In 2009, we obtained a \$250,000 matching grant through the State of Maryland Bond Bill to support clinic construction and build-out. With critical support and a \$250,000 grant from Montgomery County through the Primary Care Coalition, we opened the Mansfield Kaseman Health Clinic (MKHC) at its current location in 2010.

Now, thirteen years later, we anxiously await the relocation of MKHC to 9420 Key West Avenue, Rockville in the spring of 2024. This highly anticipated move will grant MKHC an opportunity to expand its footprint in the County and connect with major healthcare providers like Adventist Healthcare Shady Grove Medical Center. It will be the start of a new era of transformation – a renaissance.

*Welcome
(from the Event & Board Chairs)*

Greetings Reach Supporters,

We are so excited and incredibly grateful to see you here tonight! It has been four years since we have had the opportunity to celebrate the Mansfield Kaseman Health Clinic and its extraordinary work in person. Through the pandemic and other seemingly insurmountable challenges, the Clinic has continued to deliver high-quality healthcare to uninsured and underinsured Montgomery County residents. Put more plainly, the Clinic has continued to save lives.

And, it has been able to do so (in large part) because of its talented and dedicated staff of physicians; nurses and nurse practitioners; medical interpreters, assistants, and interns; patient navigators, and administrative professionals, but also because of supporters like you. Whether you are or have been an event sponsor, a donor, a ticket purchaser, a volunteer, or someone who simply shared information about the Clinic, you are part of its success. So, thank you, and welcome to tonight's event, which is both a celebration of this past year's accomplishments and of the eagerly anticipated changes that await.

We will share more about those later in the program. For now, mix and mingle, have some food and drinks, do a little bidding and dancing, and enjoy the evening! Thank you again for being here and for supporting the Clinic.

Best regards,

Monique Ashton
